YOU ARE A MEDIA DESIGNER

AND WHERE WILL YOU FIND INSPIRATION?

Flickr | TheeErin

Tenets of HCD

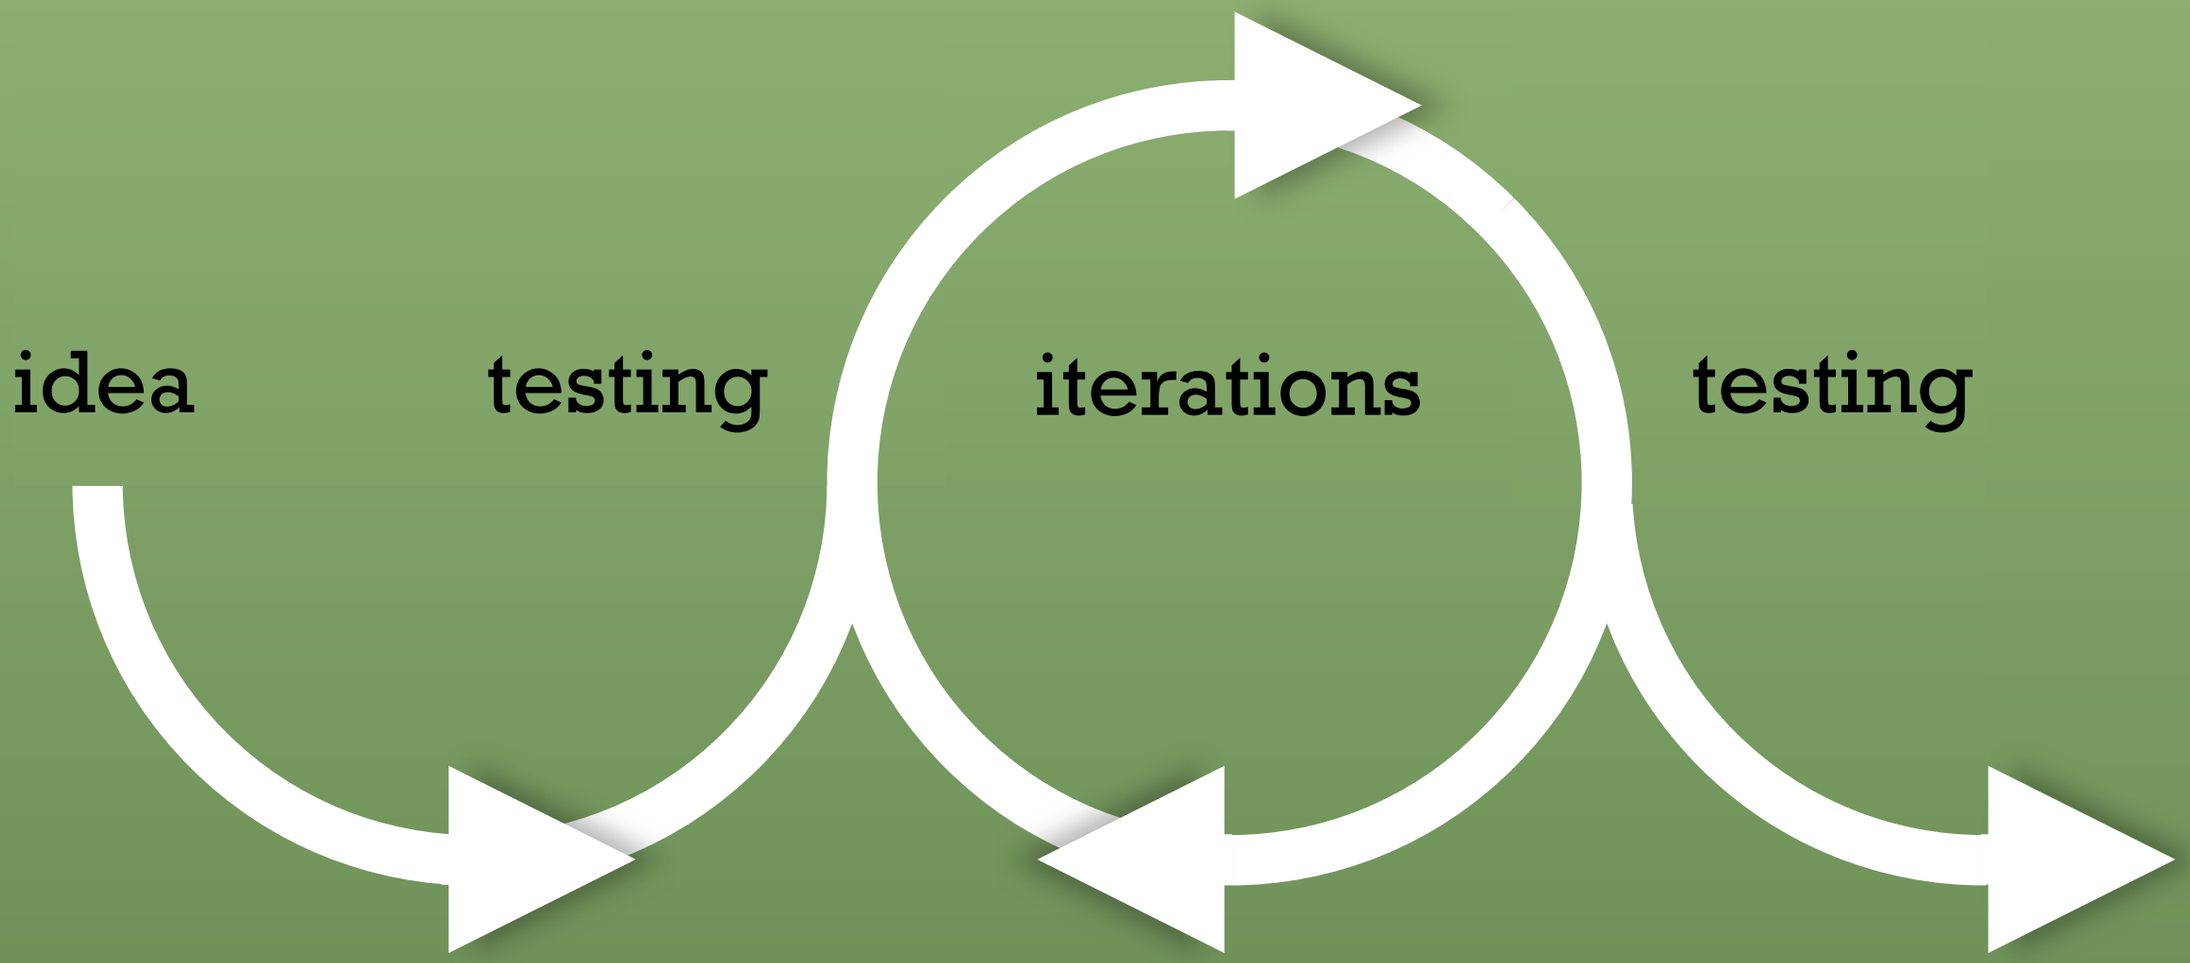

- Test existing designs & competitors
- Study your users
- Create low cost & effort mockups
- Iterative prototyping
- Test new product with real users

Iteration

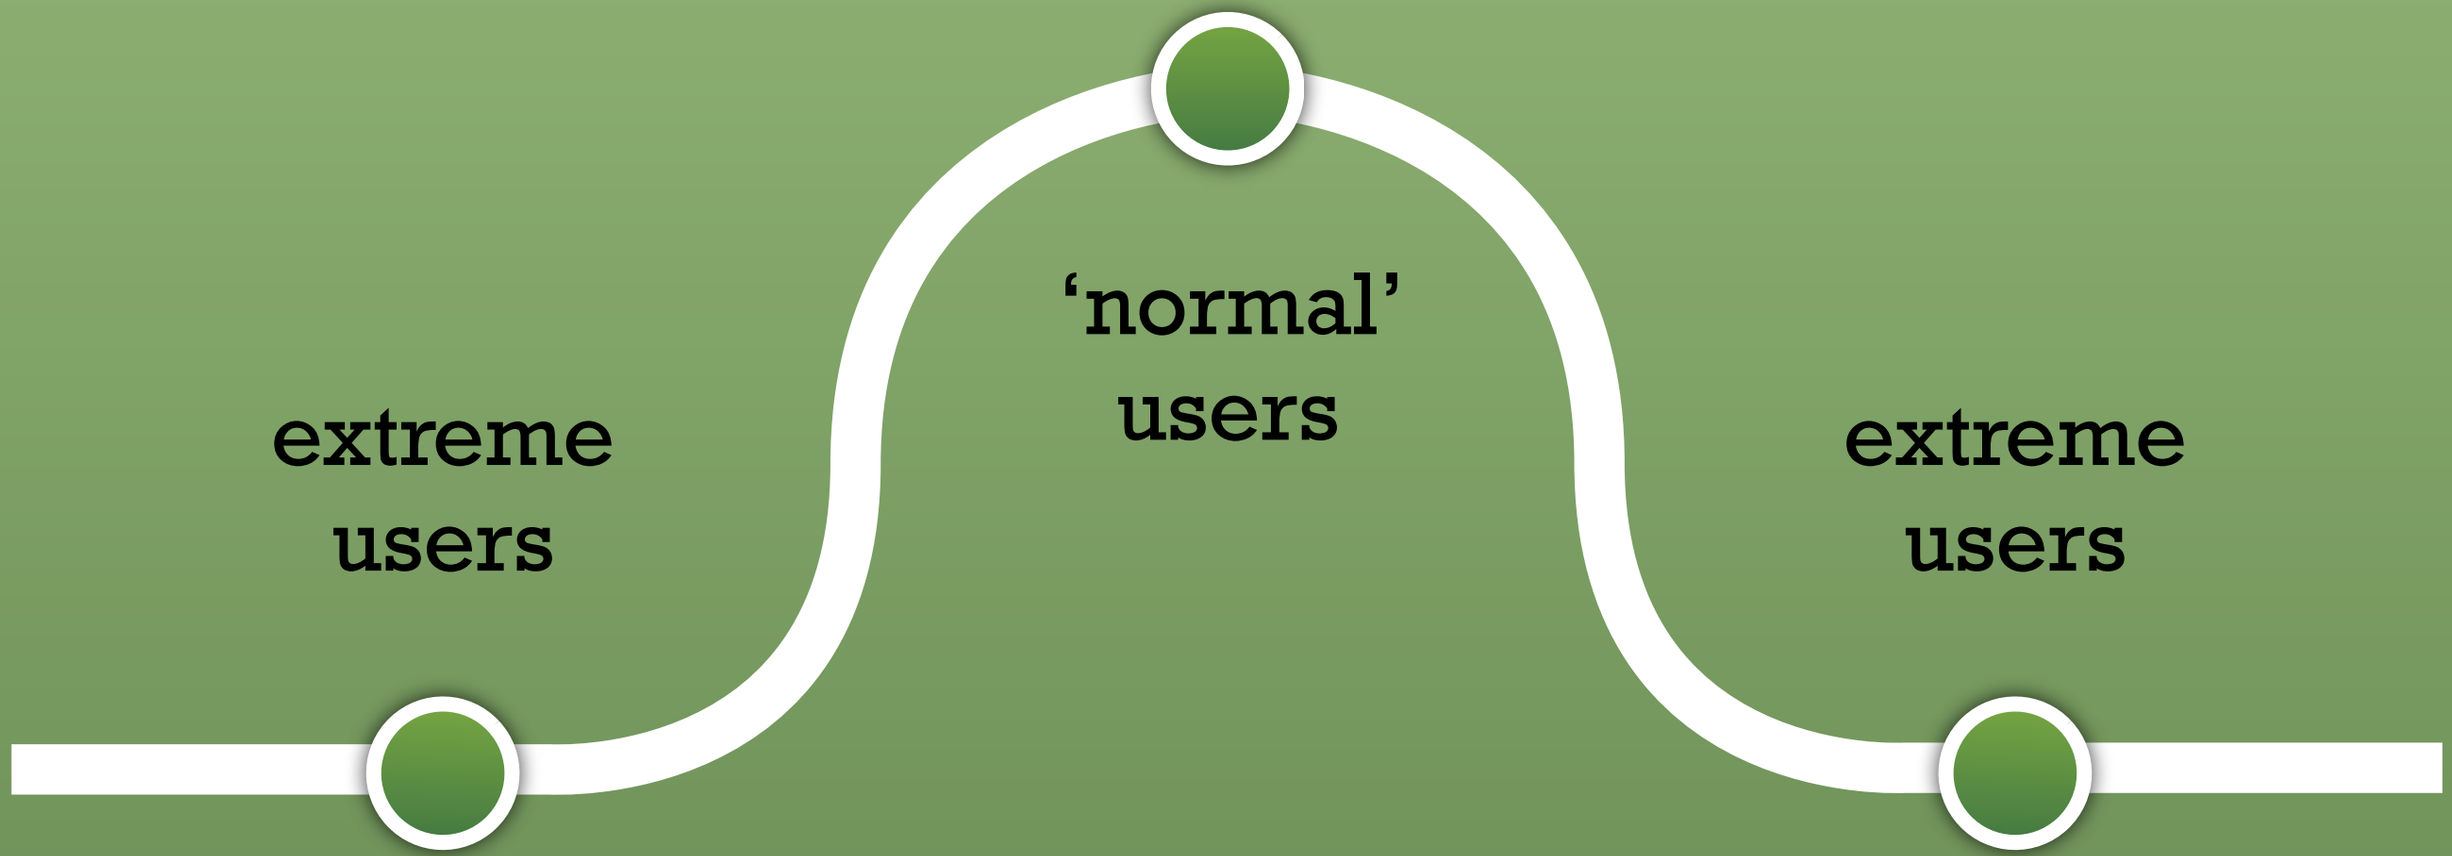

> Good prototypes don't just communicate — they persuade.
>
> — **Tom Kelley**, general manager IDEO

Prototyping is the Shorthand of Design

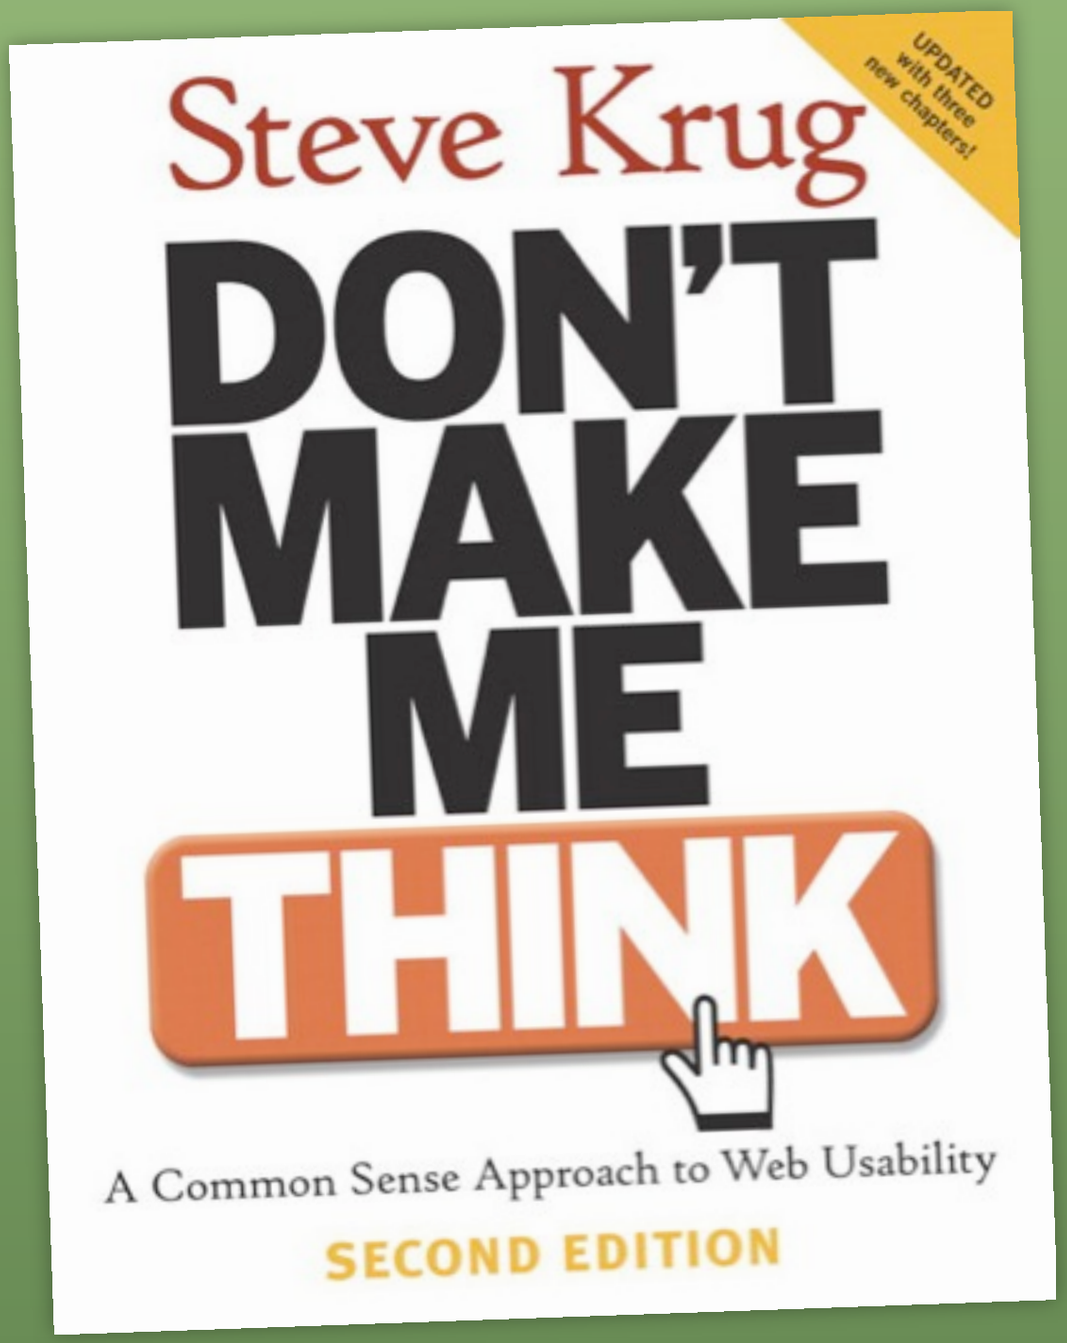

Innovation Cycle

Who To Test

How Many To Test

- Test **8** users **1** time
  - Find **5** problems
- Test **3** users **2** time
  - Find **9** problems

Sketching

> “Whatever our problems are, we can solve problems with pictures.”
>
> **—Dan Roam**, author of The *Back of the Napkin*

Dan Roam’s The Back of the Napkin

Three Questions

- Which problems can drawing solve?
- What kind of pictures do we need?
- Who is drawing these pictures?

NOW IT'S TIME TO PUT PEN TO PAPER

Card Sorting

- Gathering feedback on how to organize your content or features
- Learn from multiple users

- Capture content or feature types — with examples on index cards
- Invite users to sort the cards into piles

EXAMPLE

Imagine a tool that offers 30-second dining selection recommendations. After diners choose a restaurant they can hear from a chef or critic who tells them the dishes they recommend and why.

Content Inventories

- Understand the purpose and utility of existing content or features
- Easy to understand topography — helps eliminate unnecessary items

- In a sortable spreadsheet map:
  - What is it? Where is it? What works? What doesn't?

EXAMPLE

The Girl & Goat

Site Map

- Explain the relationships between content or the process of interaction
- Illustrates the hierarchy of a site or dependent steps in a process
- Represent pages or steps visually using basic shapes
- Mark relationships between pages or steps with lines or arrows

Developed by

Paper Prototyping

- Quickly scope out website or tool
- Low-fidelity makes it good for user testing

- Using pen and paper draw out key features of each screen
- Avoid excessive detail
- Features should be easy to move and re-arrange — PostIt Notes can help

EXAMPLE

Gapers Block
