Attorney says Rihanna will appear in court
LOS ANGELES - Rihanna's attorney says the singer will appear at a hearing next month as a possible witness in the assault case against Chris Brown.
Donald Etra says prosecutors have told him Rihanna will receive a subpoena to testify at a preliminary hearing June 22. The hearing will focus on whether there is enough evidence to continue the case against Brown.

War imminent as deadline set to expire tonight

Knight Ridder News Service

SOMEWHERE IN KUWAIT — Iraqi leader Saddam Hussein — defiant and dressed for battle — Tuesday rejected President Bush's demand that he flee into exile. White House officials called it Saddam's "final mistake."

The 48-hour deadline imposed by the United States arrives at 8 p.m. EST today. War could explode at any moment after that — or sooner if Saddam is caught preparing to use nerve gas or seems ready to destroy dams or oil fields.

A U.S.-led invasion force of 300,000 troops awaits the order to attack.

SADDAM SUPPOR T: Iraqis demonstrate their support for Iraqi President Saddam Hussein on Tuesday during a rally in Baghdad.

"It's a good thing we're going to do," Lt. Gen. William S. Wallace, the commander of U.S. and allied ground forces, told troops in Kuwait just before they moved to within 10 miles of Iraq. "It's a noble thing we're going to do."

Now on the cusp of war overseas, the United States also stands at the second-highest level of alert at home.

In Washington, authorities expressed new concern about terrorist attacks against Americans at home and abroad, and the Agriculture Department told farmers and food processors to monitor the nation's food supply more closely.

"Iraqi state agents, Iraqi surrogate groups, other regional extremist organizations and ad hoc groups or disgruntled individuals may use this time period to conduct terrorist attacks against the United States," Homeland Security Secretary Tom Ridge said.

BEGINNING OF THE END?

With Saddam caught, U.S. hopes Iraq embraces independence

■ Former Iraqi leader Saddam Hussein is shown in captivity Sunday in this image from television. Found Saturday in a dirt hole under a farmhouse near his hometown of Tikrit, eight months after the fall of Baghdad, Saddam reportedly was cooperative and talkative immediately after his capture, but later turned defiant and refused to admit to human-rights abuses when top Iraqi officials visited him. Interrogation, trial in deposed tyrant's future

The News-Press wire services

Now that they've got Saddam Hussein, the question is what to do with him.

His arrest Saturday at a farm near Tikrit marked the culmination of a disastrous year for the former Iraqi president. Instead of building a modern-day empire to rival those of past Arab heroes, he lost control of Iraq, went underground — literally and figuratively — and saw his two sons and political heirs killed by U.S. forces.

Saddam, accustomed to a lavish lifestyle with easy access to top-shelf alcohol, extra-long Cuban cigars and many women, spent his final months of freedom on the run. The image of the proud leader in fine Western suits or tailored military gear was replaced Sunday by televised pictures of a seedy old man being checked for lice.

Now, he faces justice.

Just days ago, Iraq's Governing Council announced plans for a special tribunal to try Saddam and other former regime leaders. But at Sunday's news conference in Baghdad, Lt. Gen. Ricardo Sanchez was careful to keep open all options when he said the United States was still deciding what to do with the former Iraqi dictator.

The United States must decide whether to turn over Saddam to an Iraqi judicial system that many experts consider incapable of executing such a trial. The other options include a U.S. military proceeding or even a trial in a U.S. civilian court.

A swift trial and a date with the executioner is the usual denouement for tyrants who were not prudent enough to choose exile while that was still an option. But in Saddam's case, it seems more likely that justice will be long, slow and televised.

Ahmad Chalabi, a member of the U.S.-appointed Iraqi Governing Council with close ties to the Bush administration, insisted Sunday that Iraqis would try their former leader.

"Saddam will face trial for his crimes against the Iraqi people in an Iraqi court," Chalabi said, adding that the trial would be public "so that the Iraqi people will know his crimes."

But international law experts questioned whether

Q&A

■ Question: Who tipped off officials to Saddam's hideout?
■ Answer: A member of a family close to Saddam.

■ Q: Will that person collect the $25 million U.S. bounty?
■ A: Lt. Gen. Ricardo Sanchez, the top military commander in Iraq, could not give any information about the reward.

■ Q: What else was confiscated in the raid?
■ A: Two other low-level members of Saddam's regime, two rifles, a pistol and $750,000 in $100 bills.

■ Q: Where is Saddam now?
■ A: Officials won't reveal the exact location for security reasons.

■ Q: What's next?
■ A: U.S. officials haven't decided when or whether to turn over Saddam to the Iraqis for a war-crimes trial. Amnesty International says he should get POW status.

Bush gets boost in image as leader

BY STEVEN THOMMA
Knight Ridder News service

WASHINGTON — The capture of Saddam Hussein will help President Bush as he enters his re-election campaign, bolstering his image as a leader.

Challenges remain for Bush before he can claim a broader victory in the war on terrorism in Iraq or elsewhere. He still must show the world that Saddam was harboring weapons of mass destruction. He has to end the violence in Iraq and put it on the path to democracy. And he has to capture terrorist mastermind Osama bin Laden.

KHALDIYAH, IRAQ — A suspected suicide attacker detonated a car bomb outside an Iraqi police station Sunday near Baghdad, killing at least 17 people and wounding 33 others, hours before the announcement of Saddam Hussein's capture, the U.S. military said.

Also Sunday, an American soldier was killed trying to defuse a roadside bomb.

In the evening, after celebrations in the capital over the news of Saddam's arrest, three barrels of

Hurricane Charley

SEVEN DAYS OF STORM COVERAGE — AUGUST 2004

Southwest Florida's worst nightmare, a Category 4 hurricane that suddenly spiraled in magnitude and darted toward our unsuspecting coast, shredded homes and trees and left many residents homeless, hungry and in the dark. This special section recalls the fear, devastation and hope of Southwest Floridians as a 44-year lucky streak ended.

“When you visit Haiti, it'll break your heart, and when you leave, you won't take back all the pieces.”
■ Haitian proverb

■ A boy races a horse down Rue Nationale #3 near the village of Bohoc, where Southwest Florida missionaries work. The road is Haiti's third main highway, connecting the cities and towns of the Central Plateau, north of Port-au-Prince. Leaders have talked about repairing the highway over the years, but it remains riddled with potholes. A four-mile drive can take 30 minutes.

Haiti's hope

Its people are among the poorest in the world. Every day, they struggle to feed and clothe their families and educate their children. Many residents of this Caribbean nation rely on a network of Southwest Florida volunteers, health care workers and missionaries who have reached out to help. Together, they share a faith in Haiti's future.
