CNN.com - Grim Sleeper

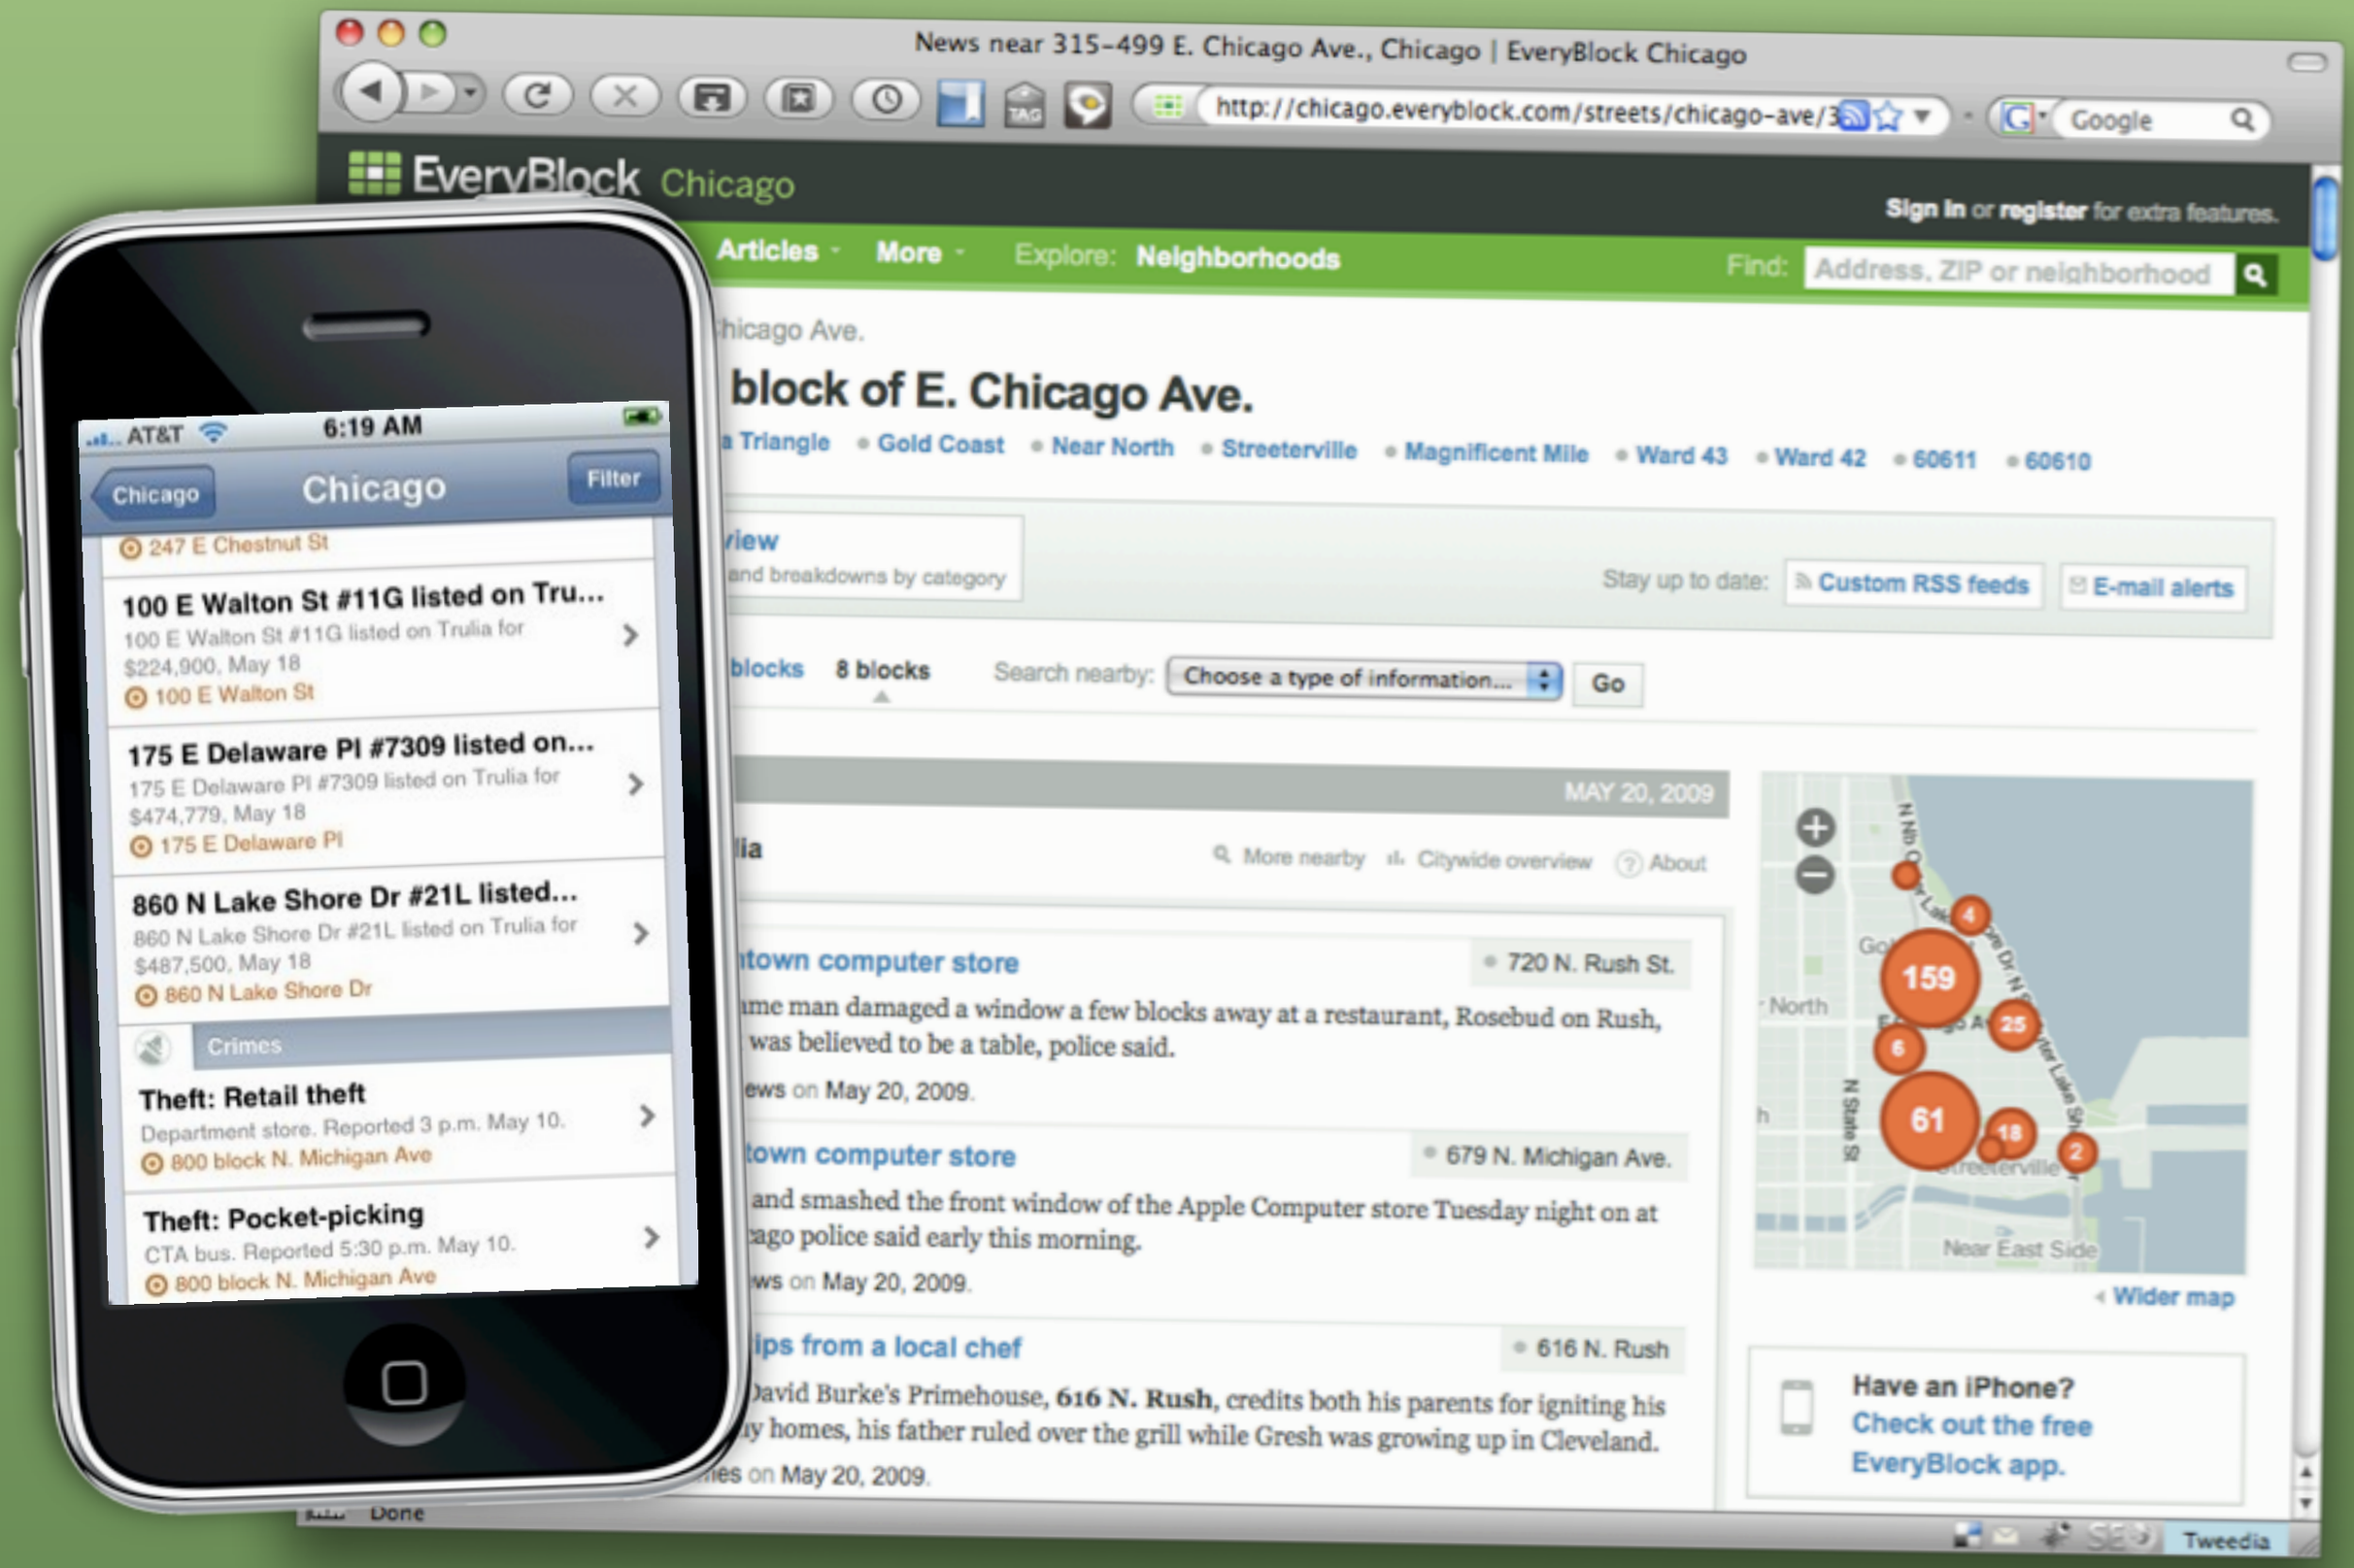

The Grim Sleeper

case | victims | connections | evidence | suspects | theories | key players | respond

A serial killer known as the **Grim Sleeper** has killed at least **11 people** over two decades in south Los Angeles. He targets black women, some working as prostitutes, and uses the same small-caliber gun. He shot one woman, **a lone survivor**, before pushing her out of his car. Nicknamed for taking a long break between attacks, the killer has left DNA and fingerprints, but police cannot find a name to match either. As detectives struggle to crack this **haunting cold case**, they say it's only a matter of time before he kills again.

Investigate your MP's expenses

Investigate your MP's expenses

Join us in digging through the documents of MPs' expenses to identify individual claims, or documents that you think merit further investigation. You can work through your own MP's expenses, or just hit the button below to start reviewing. (Update, Fri pm: we now have a virtually complete set of expenses documents so you should be able to find your MP's)
Already created an account? Log in here.

We have **458,832** pages of documents. **27,000** of you have reviewed **221,337** of them. Only **237,495** to go...

Start reviewing

Please read our privacy policy to find out how we use your data. You must also read our terms of service. By reviewing pages, you are agreeing that you have read the terms of service, and that you agree to them.

Thanks everyone for your valiant efforts so far.

You're amply justifying our hope that many hands can make light work of the thousands of documents released by Parliament in relation to MPs' expenses. We, and others - perhaps you? - are still using these tools to review each document, decide whether it contains interesting information, and extract the key facts.

Some pages will be covering letters, or claim forms for office stationery. But somewhere in here is the receipt for a duck island. And who knows what else may turn up. If you find something which you think needs further attention, simply hit the button marked "investigate this!" and we'll take a closer look.

How to get involved:

Step 1: Find a document
Step 2: Decide what kind of thing it is and whether it's interesting
Step 3: Copy out any individual entries

then I liked chicken wings one day, and then I liked apple pies and now I like grilled cheese—but nothing has lasted longer than spaghetti. Spaghetti has lasted since, I don't know how young it started, but until about age 18. So it has a very special place in my heart.
