Design Philosophy

SCHOOL LIFE: FONTS AND USAGE

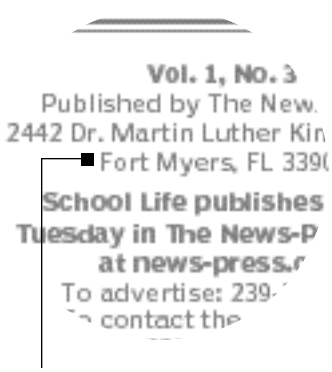

The design of School Life was created with simplicity and ease of use - for both readers and creators. The tab depends on rules and typography to supply it's visual interest. At the same time School Life is meant to be easy to assemble with a minimum of design/production work. Therefore the tab relies on a limited font palette, highly formatted templates and pre-created library elements for shapes of articles, photographs and other elements. Ideally the layout and production of School Life should be quick and simple.

FONT PALETTE: Only three fonts (and four font faces) are used in the creation of School Life. They are as follows:

"Clarendon"

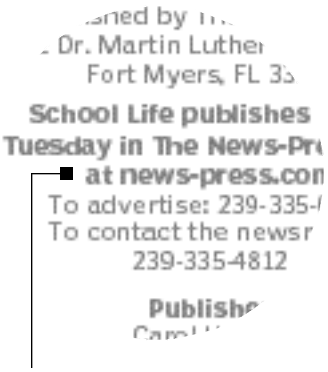

It's use includes but is not limited to: The cover headline, cover teasers, folio, Q&A drop caps, section and sub-section headers.

"PoynterAgateOne-Regular"

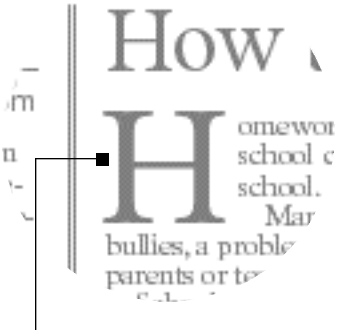

It's use includes but is not limited to: Table of contents, staff list, bulleted lists (and the bullets themselves), calendar, mugshot titles/descriptions, TeacherFeature, bylines and cutlines.

NOTE: Sometimes this font face will be italicized, it does not have an italic face and so it should be italicized using that option inside of QuarkXPress or Quark Copydesk.

"PoynterAgateOne-Bold"

It's use includes but is not limited to: Table of contents, staff list, calendars, TeacherFeature, folios and cutlines.

"PoynterOSTextOneL-Roman"

It's use includes but is not limited to: Body type, photo credits, headlines, drop caps and folios.

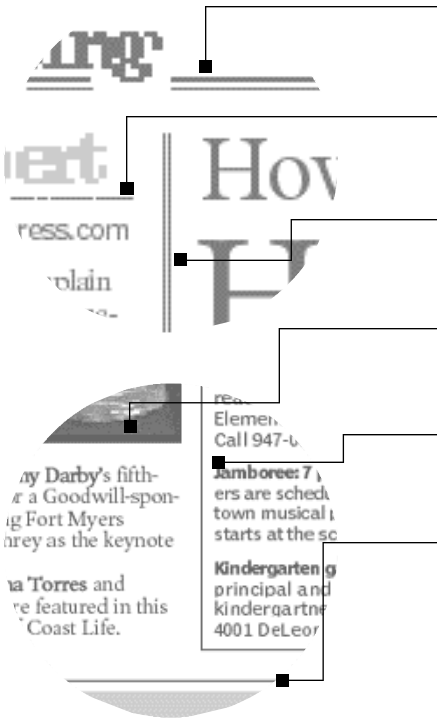

NOTE: This stylebook concerns itself only with the design and production of the editorial portions of School Life not those sections created by The News-Press' marketing or advertising staffs.

SCHOOL LIFE: GRAPHIC LINES/BOXES AND USAGE

Because the graphics and photography departments are meant to have limited involvement in the creation of School Life the typography and graphic lines employed in the design templates are meant to give the pages a sense of style and flair. Using the correct graphic lines and boxes are necessary to give readers a sense of consistency and to guide them in their reading of the tab.

GRAPHIC RULES/LINES: There are four types of lines/rules employed in School Life. Three are horizontal and one is vertical.

: It's use includes but is not limited to: Page headers, horizontal article dividers and school names - above the name. (4 pt.; Thick-Thin)

: It's use includes but is not limited to: Subhead underlines, pull quotes, calendar key and school names - below the name. (1 pt.; All Dots)

: It is used to separate content sections. (Two .5 pt.; Solid; Spaced 0p3.6 apart)

: It's use includes but is not limited to: underneath pictures: pull quote, cutouts, news photos and mug shots. (4 pt.; Solid)

: It's use includes but is not limited to: Horizontal line dividing advertising and editorial and table of contents. (.5 pt.; Solid)

SCHOOL LIFE: DESIGN ELEMENTS THAT MAKE UP PAGE 4,8,10 DIRECTLY AND 5,9,11 INDIRECTLY

The pages that best fulfill School Life's mission statement are the "News and Events" pages. There are pages for Elementary, Middle and High Schools. Each of the pairs of pages has a TeacherFeature - an interview with a teacher of that school level - and news and calendar items from each of the three zones - West, East, South - and the private schools:

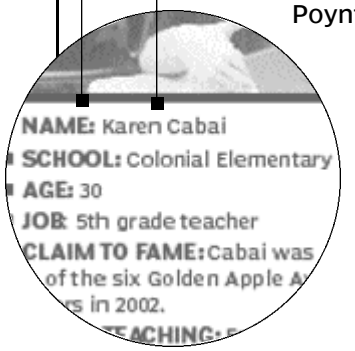

NEWS AND EVENTS: Each item in the news and events list has the school name atop the listing (PoynterAgateOne-Bold, 9.1pts, 9.4 leading, 0 tracking, All Caps, Space After 1p4, Rule above 4 pt Thick-Thin 12%, Rule below 1 pt All Dots 33%).

A news item (see MAIN FEATURE on Page2) is a series of sentences with the names bolded. Calendar items are preceded by a date (PoynterAgateOne-Regular, 7 pts, 9.4 leading, 0 tracking, All Caps, Space Before 1p, Space After 0p8, Rule below 1 pt All Dots 30%). If the item has a photo the name of the school precedes the photo - only the top line will show - and text follows below.

The calendar items themselves have a leadin including a time element (PoynterAgateOne-Bold, 8.25 pts, 10 leading, -8 tracking, Space After 0p3, Left indent 0p6, Right indent 0p6) and is followed by text ending with a location or phone number or both (PoynterAgateOne-Regular, 8.25 pts, 10 leading, -8 tracking, Space After 0p3, Left indent 0p6, Right indent 0p6). The calendar items - date, leadin and text are surrounded by a box with 0.5 pt border. There may be calendar items for schools without news items. In that case the school name appears above the box containing the calendar items. The school name should not have the rule below, only the rule above.

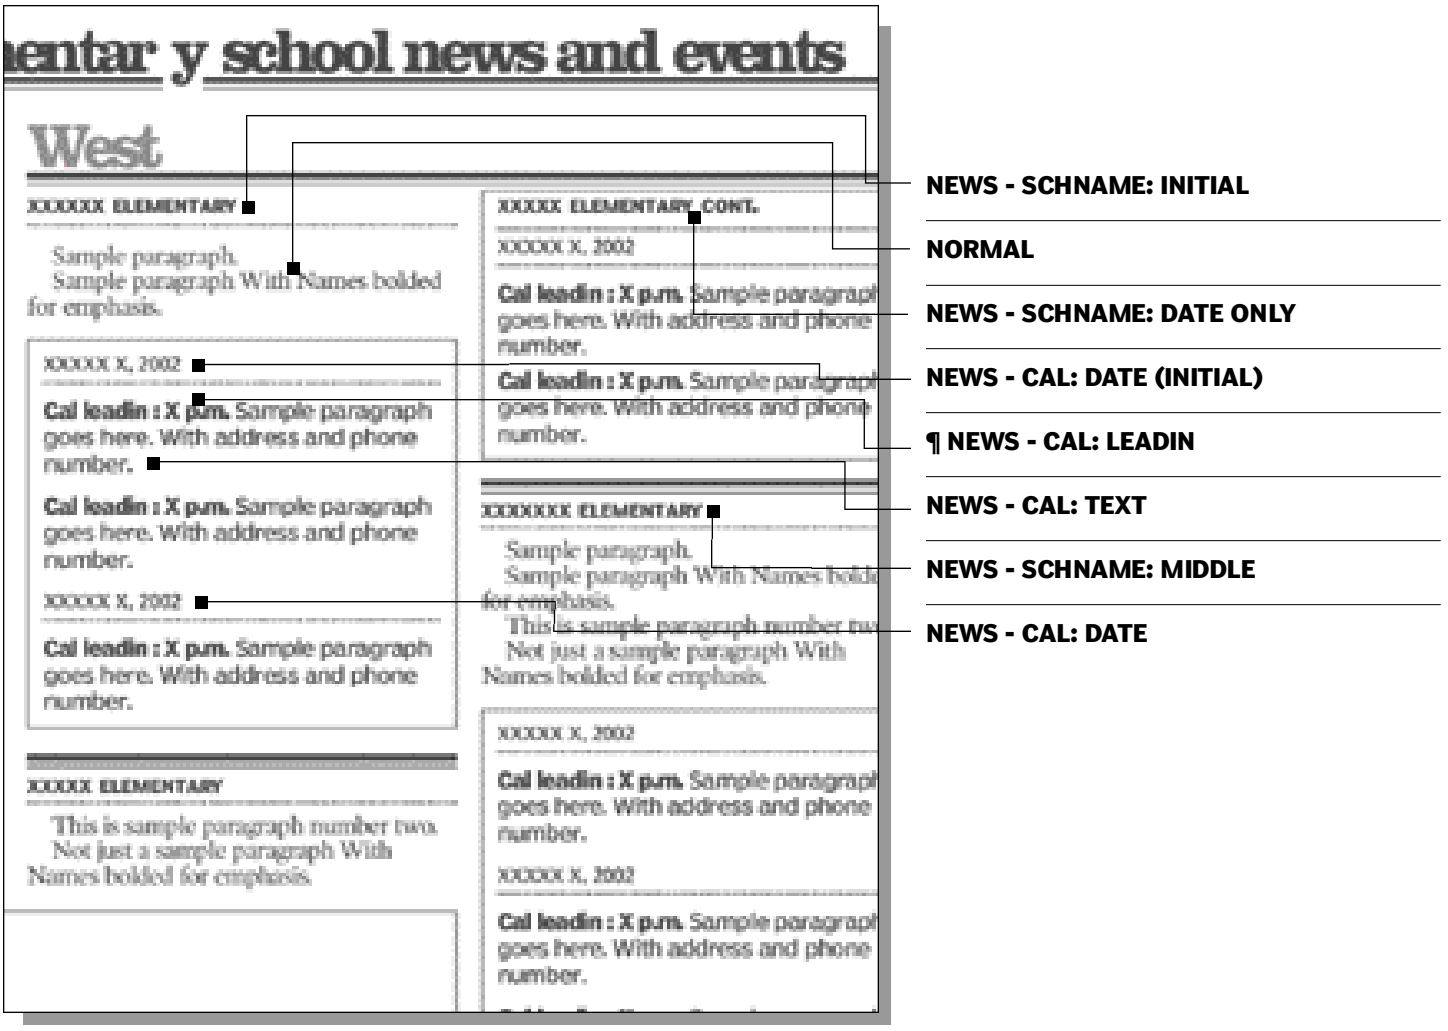

LEADIN: PoynterAgateOne-Bold, 9 pt, 10 pt leading, 0 tracking, all caps, Space after 0p4.

TEXT: Same as above except: PoynterAgateOne-Regular.
